

ACA Grants It's First Ever Product Endorsement
October 3, 1999

The American Cuemaker's Association is proud to announce that it has granted its first ever product endorsement.

Sir Joseph's Gloves of Holly Springs, NC., provides a product whose quality is consistent with the high standards that the ACA demands of its members.

In considering this endorsement, the ACA not only looked at the product, but at the company as well. Joe Weede has been a long time billiard industry supporter, by helping sponsor many events such as the Junior Education Foundation, Wheelchair Leagues, Women's and Men's Tours, Billiard Congress of America, and several smaller tournaments and leagues. Sir Joseph's gloves is definitely worthy of the ACA endorsement.
